In The Pilot Seat

Our next meeting will be Monday, October 21st. At this time I am trying to get someone to do a clinic on anything that would interest most members.

I have asked numerous times what you would like to see at clinics, but I have not received a response. Maybe members bringing in models on display and forming talks satisfies your need for clinics? Well we won't give up on them yet. As the need for clinics arises we will host them.

Doug will be accepting dues from those who haven't paid yet. You are just making it harder for us to run a well oiled club. Do we have to consider a penalty rate for each month you are late to pay? The threats have been there each year. Maybe we have to put them in effect. I will say that last year I sent out e-mails to those excused from paying. Just to let members know they include very long time members who have been ill the past two years and have not been able to even attend the meetings. In a way it's a way of showing the club's appreciation for there long time support. The board members have carefully discussed this issue before it went into effect.

I hope to attend this meeting for my recovery is improving better as of week five after surgery. Increased sleep has been a factor. I don't want to go through this again!!!

It was scary and the five days after it felt like ten days and were not pleasant at all. Once I got home it was all discomfort and slow motion.

News from Jim Boulukos and IPMS Nationals. Jim took a first place award and a third in the auto categories. Steve Andreano took a second award in the artillery category. He said it was a great show with about 3000 contest entries and 1600 on display only. Next year 2020 the nats will be held in San Marcos, Texas. In 2021 it will be in Las Vegas, Nevada and in 2022 in Omaha, Nebraska. That's three years I will miss attending. What gives east coast chapters? We have had some nice shows in the past! Walt Disney World was wonderful with low room rates!

Where have I been? A few weeks ago I heard Testors will not be making the International military colors in enamel. I went to Hobby Lobby last week and all I saw were basic colors. There isn't any other manufacturer of enamel paints and I didn't like trying out Acrylics. I have been buying several jars of enamels in the past for backup stock. I just hope I have enough to last me over the next fifteen plus years.

Our RepLIcon 30 flyer is just about completed and after proof reading will be printed in quantity for distribution.

Keep our hobby alive and well,

Bob

1/72 PT-109

Revell kit number 85-0310

The PT-109 is a fairly new release of an old mold. It's a nice model kit, it went together nicely, but I had a crazy time with the detailing, air brushing and hand painting with all types of paints. A lot of enamels used yet no puttying.

1/16 1979 Pontiac Firebird

MPC big scale Kit number 862

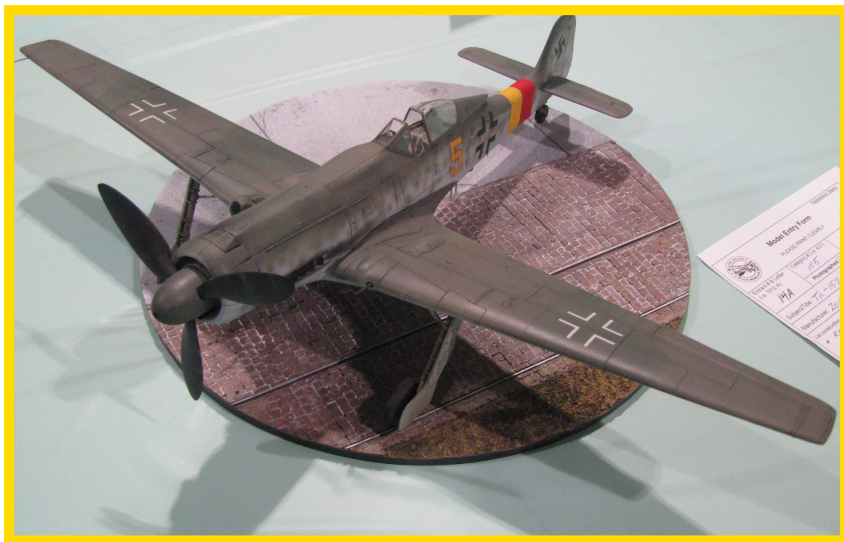

The 1979 Pontiac Firebird, is a 1/16 MPC big scale Kit number 862 new release of an old mold. There is a little bit of a fit issue with some pieces. Other than that it's a really nice kit. I finished it in the original urethane Atlantis Blue Metallic paint with Testors Model Masters Ultra Clear Coat. Puttying was not necessary.

1/16 1957 Chevy

ATM big scale Kit number T841

The 1957 Chevy, on the right, is an original AMT 1/16 big scale kit number T841 from the mid 70's. I added some engine wiring for detail. It went together nicely without putty. I finished it with some old enamel paint.
